RULING ON ENTITLEMENT¹

On October 23, 2019, Robert LaBianco filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barre Syndrome as a result of an influenza vaccine received on November 15, 2018. Petition at 1. Petitioner further alleges that residual effects of his injury continued for more than six months and he has not received compensation in the form of an award or settlement and has not filed a civil action for his injuries. Petition at ¶¶ 6, 8. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 4, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

1. Specifically, Respondent agrees that “petitioner has satisfied the criteria set forth in the Vaccine Injury Table (“Table”) and the Qualifications and Aids to Interpretation (“QAI”).” *Id.* at 6.

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
